Morning Murli Om Shanti

BapDada

Madhuban

**Essence:** Sweet children, stay in the spiritual intoxication of belonging to God's *family* and of establishing your incognito divine kingdom.

**Question:** Which firm habit should you children have so that you remain happy throughout the day?

**Answer:** When you have the habit of waking up early in the morning and churning the ocean of knowledge, you will have limitless happiness throughout the day. The Father's shrimat is: Children, wake up at amrit vela and talk sweetly to your Father. Think about which *family* you belong to and what your duty is. When it remains in your intellects that you belong to this *family* of God and that you are establishing your new kingdom, your happiness will remain throughout the day.

Om shanti. You children know that this is a spiritual family. All the rest are worldly families. This is a spiritual family. This is the family of the spiritual Father. In a worldly home, there are a mother, a father and children. However, that is a limited family. You are now the unlimited *family*. Children sing: You are the Mother and Father. That is like a *family* which is the *creation* of the *Creator*. In fact, children are His *creation*, but they don't know this. Now, you children know that this truly is the *family* of the unlimited Father. This is the world spiritual university. It is for this that it is remembered: Those who have loving intellects are victorious. Such a *family* is not mentioned in the Gita. You are God's *family*. You are establishing an incognito divine kingdom. No one knows about this. You have this intoxication. Those who remember the Father will be intoxicated. When you become body conscious, the intoxication is reduced. This is God's *family*. We have to go home and then go to the divine kingdom. There is the deity *family* there. The other is the *family* of the devil, whereas this is your *family* of God. The children of spiritual BapDada are brothers and sisters; that's all! This is the spiritual family path. In the golden age you wouldn't say that it is the *family* of God; it is a deity *family*. This *family* of God is very powerful. You now know that you belong to God's *family* and that you are establishing a divine kingdom. Talk to yourself in this way and churn the ocean of knowledge. Wake up early in the morning and stay in remembrance and you will then develop the habit of churning the ocean of knowledge and you will also constantly be enthusiastic. When everyone else is asleep, that is the time when you wake up. Wake up early in the morning and think about these things and then see how happy you remain. Follow whatever shrimat you receive and you will then experience a lot of happiness. You will remember your *family* of God and your heart will be removed from the devil's *family*. When a new home is completely ready, all attachment is removed from the old home. Until the new one is ready, the old one continues to have a little bit of repair work done to it every now and then. The heart is then removed from it. It is the same for this old world. You know that this is now an old home and that you are to go to your new home. You will then wear a new costume. Even this body is old. You are now claiming your fortune of the kingdom for your future 21 births. You are not going to rule here. Establishment takes place here. Only you know these things. This is the Gita; this is Raja Yoga. This is called easy Raja Yoga. You have established your deity kingdom in this way many times through the practice of Raja Yoga. You will not remember these things there. If you were to remember these things there, you would not feel that happiness and you would become worried. At this time you have incognito intoxication. This is the *family* of the highest-on-high Baba. This is called the incognito Godly *family type*. It is a world spiritual university. It is also God's sacrificial fire. This is a *family*. We have to become very *lovely*. You become very *lovely* in the future. You are rup and basant. The soul is rup and also basant. Such a tiny soul plays an imperishable *part*. You become rup and basant at this time. The Father is the Ocean of Knowledge. He definitely gives knowledge when He enters this body. You know that He rains the rain of knowledge. Every jewel is worth hundreds of thousands of rupees. You souls have now received the introduction of the Father. The Father has reminded you. It is in your intellects how the cycle of 84 births turns. This is why you are called spinners of

the discus of self-realisation. Neither Vishnu nor Lakshmi and Narayan are spinners of the discus of self-realisation; they don't have this knowledge. You souls have now received knowledge of how the world cycle turns. Although people speak of the Trimurti, they don't portray Shiva in that. You must have seen many pictures of the Trimurti. In corporeal Prajapita Brahma exists here. This one is very old; the *great-great-grandfather*. This is the genealogical tree of Prajapita Brahma. The Father creates the world through Brahma. Therefore, Brahma is older. They portray him as an old man. He has been around the cycle of 84 births. You now understand these things. You also know that all are the children of the Father. Souls have to be given the Father's introduction. Bharat is being benefited a great deal now. All souls will become pure and go to the land of liberation. You are now serving Bharat, Bharat in particular and the world in general. You are the very few who understand these things. In a *nutshell*, it is explained to you: Children, become Manmanabhav! It is also explained to you separately. Whatever you have, use that to establish the deity kingdom. What did Bapu Gandhiji do? He also wanted there to be the kingdom of Rama. This is such a *wonderful* play! You now watch this play as detached observers. You are also amused at how they have taken something from one period of time and put it in another. The Father says: According to the *drama*, the world has reached a very bad state. The Father has now come to grant salvation. You children are now intoxicated. That One is the incorporeal Bapuji (Father) of the whole *world*. Whose child is this Brahma? Shiv Baba's. Whose child is He? The mothers say that Shiv Baba is their Child. These are the games of Shiv Baba. There is a lot of interference by Maya in trance and in visions, especially when they say that Shiv Baba enters them and speaks. All of that is the interference of evil spirits. You children have to remain cautious. This illness of evil spirits is such that it makes you lose out in both worlds. Never have any desire for a vision. All of those thoughts are of the path of devotion. The path of knowledge has to be understood very clearly. Maya deceives you in many ways. There is no benefit in having visions etc. The Father says: I become engaged to you through this one. The Father's orders are: Do not remember bodily beings. Consider yourselves to be souls and remember the Father! You have to remember the Father for your own benefit. This is a matter of great understanding. Any of you can write your news to Baba. Some children don't even have enough sense to write a letter about their well-being to the unlimited Father. If you didn't write a letter to your worldly father, he would lose sleep. This One is the unlimited Father. When He sees that He hasn't received a letter for nearly a month or a month and a half, He understands that perhaps you do not write to the parlokik Father because Maya has eaten you. You should at least write: Baba, I constantly stay in the intoxication of becoming Narayan. I am constantly using the method that you have shown me. Baba would then understand that you are well and happy. If you don't write, He would think that you are ill and that you don't stay in remembrance. Otherwise, you would give your news to Baba: I did this *service*. I explained to this one, but it didn't sit in his intellect completely. Then, Baba would tell you how you can explain to that person. They don't understand the meaning of anything they say on the path of devotion. The main thing is that they don't know the Father. By knowing the Father, Bharat receives salvation. Because of not knowing the Father, Bharat has become completely degraded. The Father now explains to you children: I will take you into salvation and everyone else into liberation. When Bharat has liberation-in-life, everyone else has liberation. No one but the Father can bring about this *change*. Only the one Father is the Bestower of Salvation for All. Everyone definitely receives salvation. It happens cycle after cycle at the confluence age. You know that the spiritual Father of you souls is One. It is souls that remember Him. You have two fathers on the path of devotion. In the golden age you have one father. At the confluence age you have three fathers. Prajapita Brahma is your father. Shiva is also Baba. He is the Father of all souls. You have to claim your inheritance from Him. Only by remembering Him will your sins be absolved. Your sins will not be absolved by remembering Brahma. This is why you must only remember Shiv Baba. We now belong to Him. This is *real*, true knowledge from the spiritual Father for the spiritual children. All the rest are body conscious. Whatever body-conscious, impure people do, it only makes them more impure. Whatever they donate and whatever charity they perform, it only makes them more impure. This continues to happen in the kingdom of Ravan.

The Father now comes and issues an *ordinance*. He says: Children, be cautious! Don't indulge in vice! Conquer lust! Many storms will come. You mustn't fail because of those. You will have many sinful thoughts of Maya that you never had on the path of ignorance. Many such sinful thoughts come. Some say: We are very happy on the path of devotion. Now that I want to remember You, I cannot do that. I cannot remember a point. If You were something big, I could remember You. Baba says: Just say Shiv Baba and remember Me. Forget this old world. Remember Me in the land of peace. You mustn't just remember the land of peace. Only by remembering the Father will your sins be absolved. Souls have to *love* the *sweet* Father. Souls are *lovers* for half the cycle. The soul says: I forgot You for half the cycle. Whoever you Brahmin teachers bring here, they must be brought here with great caution; they must only be those whose intellects have firm faith. If they come here and then become impure afterwards, the instrument teacher would experience punishment. This is why the Brahmin teacher has a great *responsibility*. Baba has taken this chariot. He is experienced in everything. There is no question of anything dirty here. You are not forbidden to laugh, play or talk to one another. However, if there is even a little bit of love for another soul, that would increase and you would continue to remember that soul and this is why you have to go beyond that. Are you now sitting at home or in the golden age? (At home.) The Father teaches you children at home. This is the home of all of you. You would not say this when you are outside. You have very good intoxication here. You have to renounce the arrogance of your bodies. Become soul conscious and all types of your discrimination of caste and creed will finish. The old world is tamopradhan and their discrimination is increasing more and more. Earlier, at the time of the British *Government*, there wasn't so much conflict about language. Now, day by day, conflict is increasing. In the golden age, there will only be one language. There won't be any type of discrimination. Achcha.

To the sweetest beloved long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

### **Essence for dharna:**

1. Do not remember any bodily beings. Therefore, do not fall in love with anyone. Go beyond that and remain very cautious. Don't be afraid of the sinful thoughts of Maya, but become victorious.
2. There is a lot of interference by Maya in trance and visions. So, save yourself from that interference of evil spirits. Give the Father your true news.

**Blessing:** May you become a form of Kali and destroy your impure sanskars with the awareness of your Shakti form.

Always keep this form of yours in your awareness: I am a Shakti holding all my weapons. Not even the shadow of an impure soul's vision can fall on me, a purifier. No impure soul can even have an impure thought about me: I need to have such a *powerful brake*. If any impure soul has an impact on me, it means I am not influential. Those one who destroy anything impure themselves cannot become prey to anyone. So, become such a Kali form that even if someone has any such thought in front of you, he becomes unconscious in his thoughts.

**Slogan:** *Royal* forms of desire are name, fame and honour, so become detached from them.

**\*\*\* Om Shanti \*\*\***
